Cuenca, Ecuador · [linkedin.com/in/luis-aguayza](https://www.linkedin.com/in/luis-aguayza) · +593 9856 08463 · luis31aguayza@gmail.com

*Fullstack Developer with experience in building scalable web applications, specializing in **React, Next.js, and TypeScript** for frontend and **.NET Core, Entity Framework, and SQL Server** for backend. Passionate about designing **modern, high-performance, and secure architectures**, focusing on **efficiency, maintainability, and best practices**. Strong experience in **API development, database optimization, and real-time communication with WebSockets**.*

WORK EXPERIENCE

SISTEC Cia. Ltda.

Full Stack Developer

Cuenca, Ecuador

November 2021–Present

- **Led the fullstack development** of a **task management and error reporting platform**, used by **150+ clients** with **1-100+ users per company**, replacing manual communication with a **real-time automated system**. Designed and developed the **frontend with React** and the **backend using .NET Core**, integrating **WebSockets** for live updates and implementing **JWT authentication** for secure access.
- **Developed a subscription-based ERP platform with integrated payments**, using **Next.js** for the frontend and **.NET Core with MySQL** for backend operations. Implemented **multi-currency support, internationalization (React Intl), and automated billing workflows**, improving financial tracking and user experience.
- **Built a B2B warranty management system**, streamlining defective product tracking and issue resolution. Designed a **scalable API architecture in .NET Core**, optimizing database queries to improve performance. Integrated **MUI X-Data-Grid, SWR, and Yup** for efficient form validation and real-time data management.
- **Optimized database performance**, reducing query times by implementing **advanced indexing and stored procedures** in **MYSQL**. Developed **automated data synchronization** with external sources to ensure data consistency
- **Designed and implemented responsive UI layouts**, ensuring **cross-device compatibility** with **CSS Grid, Flexbox, and Styled Components**. Enhanced mobile usability, improving engagement rates.
- **Automated report generation**, creating dynamic **PDF and CSV exports** for business analytics and operational insights, reducing manual effort by 70%.
- **Integrated secure server-to-server communication**, implementing **OAuth2 and API key-based authentication** to protect data exchanges with third-party services.
- **Contributed actively to Agile workflows**, participating in sprint planning, stand-ups, and retrospectives to improve **team efficiency and project delivery**.

EDUCATION

Instituto Superior Tecnológico del Azuay
Software Development Technologist

Cuenca, Ecuador
2017 - 2021

SKILLS

Frontend

- **Development:** React, Next.js, TypeScript
- **State Management:** Redux, Zustand
- **Styling & UI:** MUI, Styled Components, Emotion
- **Optimization:** Lazy Loading, Code Splitting, Component Reusability
- **Testing:** Jest, Unit Testing
- **Integration:** RESTful APIs, WebSockets
- **Methodologies:** Agile (Scrum), CI/CD, Git

Backend

- **Languages & Frameworks:** C#, .NET Core, Entity Framework
- **Security:** JWT Authentication, Role-Based Access Control
- **Databases:** MySQL, Multi-Tenancy, Query Optimization
- **Integrations:** RESTful APIs, Server-to-Server Communication
- **Reports:** PDF & CSV Generation
- **Real-Time:** WebSockets
